

Engineering Services for Waste to Energy

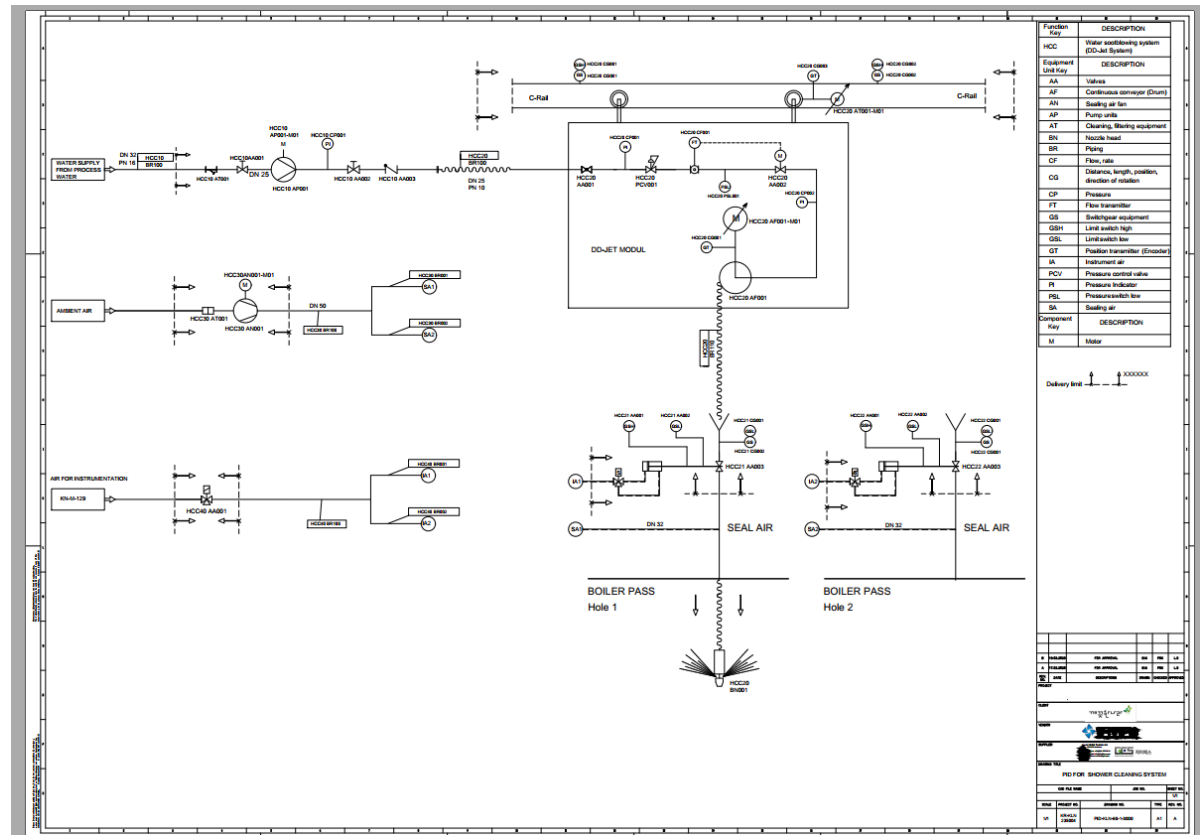

Client: M/s Jakob Stiefel Technik AG

Project: KR - KLN

Scope Of Work:

KKS coding for the following P&ID systems:

- Shower cleaning system
- Pneumatic rapping system

P&ID of Shower Cleaning System

Project: KR - KLN

Engineering Services for Waste to Energy

Client: M/s Jakob Stiefel Technik AG

Project: KR - KLN

Sl. No	PID Name	AESPL Clarification Dated 17 Feb 2025	Client Response Dated 18 Feb 2025	AESPL Clarification Dated 19 Feb 2025
1	PID FOR SHOWER CLEANING SYSTEM	In PID zone number F1, kindly provide the Sealing Air (SA) terminal point details for new this PID. We will update the same in PID instead of XXXX 	'Ambient air'	Noted and updated.
2	PID FOR SHOWER CLEANING SYSTEM	In PID zone number K1, kindly provide the Instrument Air (IA) terminal point details for new this PID. We will update the same in PID instead of XXXX 		Noted and updated.
3	PID FOR SHOWER CLEANING SYSTEM	In PID zone number G8, the distribution of SA3 and SA4 is not shown in the reference PID. Kindly confirm the requirement whether it is required or not? 	only SA1 and SA2 required	Noted and updated.
3	PID FOR SHOWER CLEANING SYSTEM	In PID zone number L8, the distribution of IA3 and IA4 is not shown in the reference PID. Kindly confirm the requirement whether it is required or not? 	only IA1 and IA2 required	Noted and updated.
5	PID FOR PNEUMATIC RAPPING SYSTEM	In PID zone number L1, kindly provide the instrument air header terminal point details for new this PID. We will update the same in PID instead of XXXX 	see point 8	Noted and updated.
6	PID FOR PNEUMATIC RAPPING SYSTEM	we have followed the reference PID for the arrangements of rapper in each section. Totally 55 RAPPERS are shown. In this project, we understood that the arrangement of module is as below:  Kindly provide the RAPPER details (total number of hammers and rappers) in each section, we will update the same. In PID zone number G3, the below tag is provided: 	Totally 71 hammers, please check our document: 241101_WGC00 P2-422 BEN-CD01 Rapping System for convective Harps	Noted and updated.
7	PID FOR PNEUMATIC RAPPING SYSTEM	It is shown as per the reference PID, please clarify the meaning of that tag. Same is followed for each rapping cylinders.	number/code is coming from suppliers template referring to local control cabinet. Please apply SLM code.	As per your mail dated 11 Feb 2025, "The tag numbers are not required, the Koreans will apply them". However, for control panel code is not available in SLM code. Please clarify.
8	PID FOR PNEUMATIC RAPPING SYSTEM	Pneumatic air source PID 		Noted and updated.

PROJECT CLARIFICATION
